## November Film and Panel Discussion “The Meadow Project” A film by Catherine Zimmerman

“Author and photographer, **Catherine Zimmerman** combines her expertise in photography, storytelling, environmental issues, horticulture and organic practices to offer **meadowscaping** as an alternative to reduce lawn space. Zimmerman weaves her personal journey of changing her own landscaping choices into a guide that demonstrates both the need to change current, detrimental landscaping practices and the practical know how and resources to accomplish that change”.

Come and learn the benefits of meadow landscaping!

After the Film Showing, we will have a **Panel Discussion** with our local plant experts, **Dr. Larry Mellichamp, Dr. James Matthews, and Mary Stauble**, moderated by **Lisa Tompkins**. For more information on our panel:
